

# Climate Justice Principles

- Centring Aboriginal and Torres Strait Islander peoples and people with Lived Experiences in co-development
- Benefits to communities and grassroots organisations
- Collective decision-making; redistribution/diversification of power and resources; sharing power with community
- Accountability (demanding/practising)
- Advocacy / Driving Change
- Equity, human rights, and fairness
- Transparency
- Nature repair: ecological and sustainable
- Shared understanding
- Solidarity
- Shifting from symbolic actions to transformative actions
- Transition: for impacted people, communities and eco-systems – leaving no one behind
- Net-zero emissions fast: restoring a stable climate
- Promote good health and wellbeing
- Democracy: Nothing about us without us, inclusion, and representation
- Truth Telling grounded in science
- Decolonisation: healing Country and communities
- Adaptation and coping for climate impacts: reducing climate vulnerability and increasing preparedness
- Aboriginal and Torres Strait Islander peoples self-determination and sovereignty
